Combined Universal

Safety Lifeline Tester

Frame & Accessories (Kit 1)

Lighter, more compact and very user friendly, the Hydrajaws Safety Lifeline Anchor Tester clamps directly to the 8mm wire rope and will test all the swaged components during installation and for annual inspections in accordance with existing safety standards.

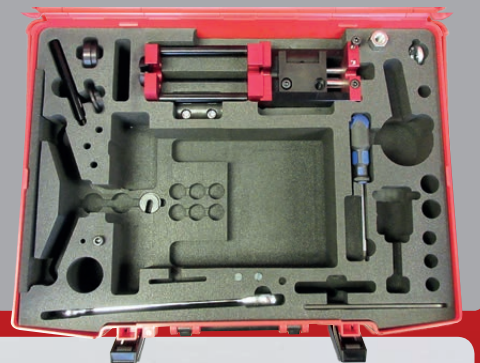

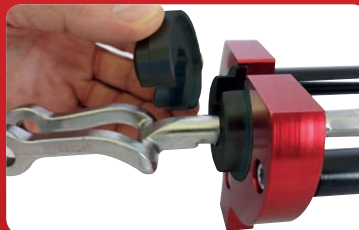

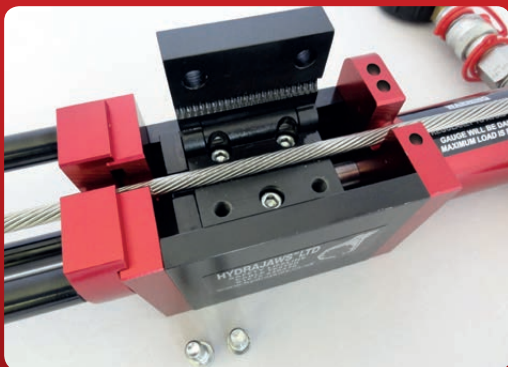

The tester is supplied with all necessary accessories to enable the operator to test existing installations including those with long terminating assemblies without any additional parts having to be used.

Kit contents:

- Test Frame and Extension bars
- Single CLamp Cable
- Slotted Collar
- Spare Cable clamps
- 22mm ratchet spanner
- 6mm Long Series allen key

Our new improved kit includes:

- Hinge Type clamp arrangement with 2 bolts (previously 6)
- Smaller/Lighter 2.4kg
- Threaded holes for securing clamp bolts during use

Extension bars fitted.

Note: This kit requires a Model 2000 Medium Duty tester with minimum 0-25kN gauge to operate.
